Experience

Carta   Nov, 2018 – Apr, 2020
Product Designer
UX • Visual Design • User Research • Prototyping

- Worked with Product Manager and Engineers to set design milestones to align a design strategy with the business goal and engineering specs.

- Facillitated user testing sessions and built prototypes to increase velocity on decision making, and avoid any possible blockers on implementation and usability problems.

- Worked closely with a design system team to add values to Carta design system by adopting and sharing feedbacks from product perspective in order to improve design patterns and create more leverage.

PayPal   Jun, 2015 – Oct, 2018
Product Designer
UX • Visual Design • User Research • Prototyping

PayPal Cash In & Out   2017 – 2018
- Collaborated with Consumer Experience Platform team to build cohesive product experience.
- Conducted user research sessions for better understanding of user behaviors and mental models to improve user experience.

PayPal Cash Card   2017
- Utilized data analytics and observed user behaviors trackers to define usability problems.
- Designed user experience components based on behavioral factors to increase conversion rate.

PayPal Cash Card   2016 – 2017
- Collaborated with design teams at PayPal to audit repeating interaction patterns.
- Built a design library for improved design and product deliver process.

UX Design Internship   2015 – 2016
- Worked on the design component library to deliver consistent user experience from end to end.
- Collaborated with designers in other product teams in regular cadence to collect feedbacks and improve the design system.
